

**Associazione Vicit Leo
via Querini 1/d, 30174 Mestre (VE), Italy**

30th October 2020

Dear friends,

We would like to update you with the latest news of our fight against the neo-Maoist-inspired totalitarianism which is growing day-by-day under the pretence of a 'scientific' reaction to COVID-19.

We would like to thank LifeSiteNews and The Remnant newspaper for the valuable support they have provided us with, [here](#), [here](#) and [here](#).

And we would like to thank all of you who have chosen to donate to our campaign fund, [here](#). We thank you from the bottom of our hearts as Italy has really become a poverty-stricken country, and the money necessary to fight back against the international health dictatorship is not easy for us to raise.

As Monsignor Carlo Maria Viganò has stated: *"In the international geopolitical context, the role of Italy may appear in some ways marginal but, in reality, Italy is a testing ground for the experiments of social engineering that the globalist agenda intends to extend to all governments over the span of the next ten years, both in the economic and political sphere as well as the religious one."*

Although our *Vicit Leo* association can boast of the support of numerous specialists in their respective fields of science, law, and ethics, publicity is denied to them by the media dictatorship and it is very difficult to make the anti-lockdown case to the general public.

Because of this denial of a free voice to challenge the reasons for Deep State repression many Italians have started to take to the streets in protest against oppressive regulations and penalties. The police have responded, in some cases, with a very heavy and violent reaction that has provoked riots and serious civil unrest. As an example, some armed policemen were actually filmed and recorded discussing plans to shoot and kill unarmed demonstrators in Rome.

The head of *Vicit Leo's* scientific Committee, Professor Pierfrancesco Belli, recently led, after a protest outside Italy's public radio and television broadcaster (RAI), a delegation to meet with top executives of the public broadcaster. We were told that our scientists and constitutional lawyers would be given airtime to put across the full case against lockdown measures, but we are not hopeful. If there is something the mass media can be relied upon for, it is to tell lies, provide misinformation, and to distort and twist the truth.

They do not want the general public to know of such things as the precise gene

sequence of the SARS-COV-2 virus [never being determined](#) in a laboratory setting under the long-established scientific norms for viral identification, or that the original procedure to identify three genes associated with SARS-COV-2 in swab tests has been reduced to just one gene common to all coronaviruses including the common cold, thus making [swab tests completely useless](#).

Our demonstration outside the RAI headquarters in Rome was attended by one of President Trump's long-term friends and advisors, Guido Lombardi, who personally brought to us the greetings of the U.S. President.

We wish him well in the forthcoming election. As Monsignor Viganò, former apostolic nuncio to the U.S.A., has stated, *"Joe Biden does not have his own identity: he is only the expression of a power that does not dare reveal itself for what it truly is and that is hiding itself behind a person who is totally incapable of holding the office of President of the United States, also because of his weakened mental capabilities; but it is precisely in his weakness against pending complaints, in his ability to be blackmailed for conflicts of interest, that Biden reveals himself as a marionette maneuvered by the elites, a puppet in the hands of people thirsting for power and ready to do anything to expand it."*

Let us work together as much as we can to oppose and prevent the neo-Maoist world dictatorship that is being forced upon us.

Once again, we thank you for all your generous donations to our [Vicit Leo Campaign Fund](#). We are truly grateful for your continued help.
